

Notice of Appointments to Cataraqi Source Protection Committee

(Effective April 1, 2016)

This is to announce that the Cataraqi Source Protection Authority has appointed members to the Cataraqi Source Protection Committee. The appointments were made in accordance with Ontario Regulation 288/07 under the *Clean Water Act*. A list of the current membership is attached to this notice. The composition and membership of the Source Protection Committee will be reviewed again by the Source Protection Authority no later than May 2019.

Background

The Cataraqi Source Protection Committee was formed in 2007 to guide the protection of drinking water sources in the Cataraqi Source Protection Area. It is one of nineteen committees across Ontario. The Committee oversees the preparation, implementation and amendment of technical reports and drinking water source protection policies, along with related consultation processes. A Cataraqi Source Protection Plan was approved by the Province of Ontario in 2014 and is now being actively implemented across the area.

The Committee is led by a Chair who is appointed by the Ontario Minister of the Environment and Climate Change. There are 12 voting members on the Committee who are appointed by the Cataraqi Source Protection Authority; they represent the municipal, economic and community sectors. There are also three non-voting liaison members representing the Source Protection Authority, public health units and Ministry of the Environment and Climate Change. The Committee members work together in support of the shared goal of clean and plentiful drinking water sources.
